

Introduction to Geography (SEM-I)

1. Understand the effect of rotation of revolution the Earth.
2. Know the internal structure of the earth know the importance of longitudes & latitudes
International Date line and Standard time.
3. Understand interior structure of the earth
4. Acquire knowledge about slope forms and processes.

Climatology (SEM-II)

1. Understand the structure, composition of Atmosphere.
2. Understand weather phenomena winds, humidity, and precipitation.
3. Understand heat balance.
- 4 To understanding the process of weather forecasting.
5. Study of koppens classification.

Geomorphology (SEM-III)

1. To know the fundamentals of Physical Geography.
2. Acquire knowledge about origin of various landforms.
4. To Understand formation of rocks there types and uses.
5. Acquire knowledge of external forces.
6. Explain different types of geomorphic processes like weathering and mass wasting and
cycle of erosion.

Geomorphology & Oceanography (SEM-IV)

1. Develop an idea about geomorphology and different types of fundamental concepts.
2. Understand the processes of erosion, deposition and resulting landforms.
3. Understand importance of ocean.

4. Knowledge about effect of ocean Currents.
5. Understand human impacts on Ocean.
6. Study about types of tides.

Geography of Maharashtra (SEM-V)

1. know the fundamentals of Maharashtra in Physical Geography.
2. Understand latitudes, longitudes line.
3. know the fundamentals of Maharashtra in Drainage Pattern .
4. Agriculture in Maharashtra.
5. Population & Density in Maharashtra.

Geography of India (SEM-VI)

1. Understand the location Physiography, Drainage, Climate, and Vegetation of India.
2. To know the silent feature, problems and prospects of Agriculture.
3. Study the Problems And Prospect of Industrial Area.
4. Population Composition India.
5. Develop an idea about regionalization of India.
