PROGRAM REPORT

Geography Day

Date: 14th January 2021

Platform: Google Meet

Geography day programme “Depletion of Underground water: Causes and Remedies” was organized by Department of Geography, Shree Shivaji Arts, Commerce, Science College, Rajura, Dist. Chandrapur on 14th January 2021.

Objectives of Guest Lecture:

1. Groundwater plays an important role as a decentralized source of drinking water for millions of rural and urban families across the world. Large tracts of rural India depend on groundwater to meet both, agricultural and domestic needs.
2. Groundwater depletion most commonly occurs because of the frequent pumping of water from the ground.
3. We continuously pump groundwater from aquifers and it does not have enough time to replenish itself.

Since the event was organized in online mode on virtual platform, the participants by using the google meet form link. The link was shared to various institutions, faculties through whats app and telegram group. Total 30 participants students of the event.
